## **Digital Confidence Releases New Versions of its Metadata Removal Solutions**

**TEL AVIV, ISRAEL (August 26, 2009)** — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions, today announced the release of new versions of its hidden data & metadata removal software solutions: ConfidentSend™, BatchPurifier™, and MailValve™.

The new versions were added the ability to remove metadata from MP4, JPEG 2000, and 3GP files.

Digital Confidence provides the most comprehensive hidden data removal solutions on the market today, capable of removing 38 types of hidden data from 18 file types, including Microsoft Office® documents (Word, Excel®, and PowerPoint®), OpenOffice.org / StarOffice™ documents, PDF documents, and popular image and media file types such as JPEG, PNG, AVI, and WAV. BatchPurifier™ is able to remove hidden data from files even if they are compressed within ZIP files.

These metadata removal solutions fits businesses, legal professionals, defense and military organizations, webmasters, and privacy conscious persons, and enables them to share files without the worry of unintentional sensitive data leakage through the hidden data embedded within them.

## **About Digital Confidence**

Digital Confidence is the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions to individuals and organizations of all sizes, from small and medium business and law firms, to large-scale enterprises.

Digital Confidence best of breed products enables our customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
