Digital Confidence Introduces New Products for Removing Hidden Data

TEL AVIV, ISRAEL (January 25, 2009) — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy solutions, today introduced two new products for removing hidden data: ConfidentSend™, which seamlessly integrates with Microsoft Outlook® 2003/2007 or with Mozilla Thunderbird™ 2 email clients, inspects and cleans the attachments of each and every outgoing email; and BatchPurifier™ which can scan multiple files and folders that the user has selected and remove the hidden data of types specified by the user.

ConfidentSend™ and BatchPurifier™ are powered by Digital Confidence DataDistiller™ Engine, which enables them to remove 30 types of hidden data from 11 file types, including Microsoft Office® documents, OpenOffice.org / StarOffice™ documents and popular image file types such as JPEG and PNG. Both products are able to remove hidden data from files even if they are compressed within ZIP files.

ConfidentSend™ and BatchPurifier™ fits individuals and organizations of all sizes, from small and medium business, to large-scale enterprises, and enables them to share files with confidence. They were designed with robustness, ease of use and speed in mind.

Digital Confidence has also released for free download a lightweight versions of the products, named ConfidentSend LITE™ and BatchPurifier LITE™, that supports the cleaning of only JPEG files.
