Digital Confidence Adds PNG Support to its Metadata Editor

TEL AVIV, ISRAEL (March 16, 2010) — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions, today announced addition of PNG support to its powerful multi-format metadata editor - MetadataTouch™.

The new version of MetadataTouch™ is able to edit XMP metadata in PNG image files, one file at a time, or in batch. Support for IPTC-NAA metadata for JPEG files has also been added.

MetadataTouch™ is a powerful tool to view and edit metadata in Microsoft Office® 2007 documents (Word, Excel®, and PowerPoint®), OpenOffice.org / StarOffice™ documents, JPEG image files, AVI video files, WAV audio files, PNG image files, and SVG image files. MetadataTouch™ is a superior tool for metadata management, and it is also useful for e-discovery and digital forensics specialists.

About Digital Confidence

Digital Confidence is the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions to individuals and organizations of all sizes, from small and medium business and law firms, to large-scale enterprises.

Digital Confidence's best-of-breed products enables its customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
