

## **Digital Confidence Adds AIFF Support to its Metadata Editor**

**TEL AVIV, ISRAEL (May 30, 2012)** — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data & metadata removal, and privacy software solutions, today announced addition of AIFF support to its powerful multi-format metadata editor - MetadataTouch<sup>™</sup>.

The new version of MetadataTouch<sup>™</sup> is able to edit ID3v2 tag in AIFF audio files, one file at a time, or in batch. Support for ID3v2 tag has also been added to WAVE files.

MetadataTouch<sup>™</sup> is a powerful tool to view and edit metadata in Microsoft Office® documents (Word, Excel®, and PowerPoint®), OpenOffice.org documents, JPEG, JPEG 2000, AVI, MP3, MP4, F4V, WAVE, AIFF, PNG, SVG, and XMP files. MetadataTouch<sup>™</sup> is a superior tool for metadata management, and it is also useful for e-discovery and digital forensics specialists.

## **About Digital Confidence**

Digital Confidence is the leading provider of data leakage prevention (DLP), hidden data & metadata removal, and privacy software solutions to individuals and organizations of all sizes, from small and medium businesses and law firms, to large-scale enterprises.

Since its foundation in 2009, Digital Confidence's desktop-based and server-based products has been deployed by more than 50,000 individuals and organizations.

Digital Confidence's best-of-breed products enables its customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
