## **Digital Confidence Announces ConfidentSend 5**

**TEL AVIV, ISRAEL (January 25, 2015)** — Digital Confidence, the leading provider of hidden data removal, data leakage prevention (DLP), and metadata management software, today announced the release of version 5 of its data leakage prevention add-on for Microsoft Outlook® and Mozilla Thunderbird™ - ConfidentSend™.

The new version incorporates the latest version of the DataDistiller™ Engine with support for five additional file formats. The new version also includes usability improvements, and three bug fixes. Microsoft® .NET Framework 4.0 is required for ConfidentSend™ 5.

Powered by Digital Confidence DataDistiller™ Engine, ConfidentSend™ is able to remove more than 60 types of hidden data from 25 file types, including Microsoft Office® documents (Word, Excel, PowerPoint), OpenOffice™ documents, PDF documents, and popular image and media file types such as JPEG, PNG, and SVG. ConfidentSend™ can remove hidden data from files even if they are compressed within ZIP files.

### **About Digital Confidence**

Digital Confidence is the leading provider of hidden data removal, data leakage prevention (DLP), and metadata management software to individuals and organizations of all sizes, from small and medium businesses and law firms, to large-scale enterprises.

Since its foundation in 2009, Digital Confidence's desktop-based and server-based products has been deployed by more than 500,000 individuals and organizations.

Digital Confidence's best-of-breed products enables its customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
